The Columbus Housing Authority (CHA) owns and manages Heritage House, an 84 apartment complex designed for persons 62 years of age and older. In addition it administers a Section 8 Housing Voucher Program that offers rental assistance to approximately 100 families renting in the private market. The CHA offers a contracted service program, to other housing agencies, for data transmittal services to a national tracking system.  These housing programs are managed by five staff persons, overseen by a Board of Commissioners, appointed by the mayor. Our target population is low to moderate-income households. A current assessment of the community housing market shows an additional need for elderly housing.  The CHA is planning a new 60-unit development designed for the elderly. This will be an independent, mixed income facility with services.

## 1. Statement of Housing Needs

[24 CFR Part 903.7 9 (a)]

#### **BACKGROUND - GENERAL CONDITIONS**

**Population**: Columbus is located in Platte County. Its 1990 and 1998 population consisted of about 65% and 68% (respectively) of County population. However, the 1990-1998 population growth in Columbus is estimated to be substantially higher than in the County (7.3% compared to 3.1%). Available information suggests that population growth was a result of in-migration of families and individuals. Columbus' growth rate is similar to population growth in Omaha Metropolitan Area and Lincoln.

The population is aging, although the City's relative size of the elderly is similar to the State average (14%). Census estimates show that the elderly population increased slightly. Given the total population growth, this means an increase in absolute number of elderly living in Columbus.

**Housing Stock:** The 1990 housing stock consisted of about 26% units with a structure of at least 60 years old and about 36% units with a 40-year old structure. However, because of the construction of new housing during the post Census years, the relative number of old houses fell to about 23% and 32% (respectively) of the housing stock.

In 1990, 95.7% of housing units were occupied. Although accurate information is not available, anecdotal information provided by different social services agencies suggest that vacancy rate is lower than 1% and that some housing units occupied by minorities are overcrowded.

About two thirds of the 1990 housing units were owner occupied single family units. Elderly comprised of nearly one third of homeowners, which is a high percentage compared to the relative size of elderly households of all households (14%). Elderly renters comprised of 20% of all renters. Available information suggests that the number of elderly renters is growing due to move of elderly homeowners to different elderly housing facilities. Unfortunately, however, accurate data is not yet available.

#### A. Housing Needs of Families in the Jurisdiction/s Served by the PHA

Based upon the information contained in the Consolidated Plan/s applicable to the jurisdiction, and/or other data available to the PHA, provide a statement of the housing needs in the jurisdiction by completing the following table. In the "Overall" Needs column, provide the estimated number of renter families that have housing needs. For the remaining characteristics, rate the impact of that factor on the housing needs for each family type, from 1 to 5, with 1 being "no impact" and 5 being "severe impact." Use N/A to indicate that no information is available upon which the PHA can make this assessment.

#### (2) Reasons for Selecting Strategies

Of the factors listed below, select all that influenced the PHA's selection of the strategies it will pursue:

$\boxtimes$	Funding constraints
$\boxtimes$	Staffing constraints
	Limited availability of sites for assisted housing
	Extent to which particular housing needs are met by other organizations in the
	community
$\boxtimes$	Evidence of housing needs as demonstrated in the Consolidated Plan and other
	information available to the PHA
	Influence of the housing market on PHA programs
	Community priorities regarding housing assistance
	Results of consultation with local or state government
	Results of consultation with residents and the Resident Advisory Board
	Results of consultation with advocacy groups
$\boxtimes$	Other: (list below)

After a thorough examination of our existing and potential market, as well as the characteristics of our residents and the Agency's track record, the Housing Authority determined that the above strategies are most appropriate for meeting our mission and goals, and support the community. These strategies reflect the results of working through our long term plan in consultation with our residents, Board, community representatives, and other housing authorities serving small communities in Rural Nebraska.

### 1999 RASS SURVEY – FOLLOW UP ON CRIME AND SAFETY

The CHA designed a survey instrument to follow up with residents on the crime and safety issues that came out slightly low of the RASS survey results. The purpose of CHA survey is to obtain direct feedback from residents about the above issues, and determine if and where additional improvements should be made. The survey instrument will be distributed in the next few months. CHA expected to complete the survey process (including public meetings as needed) by December 2000.

The housing authority will continue to collaborate with the local police department and other agencies to provide a safe and secure place to live.
